

Activity Report

Our Association has been organizing various kinds of seminars/activities for members' participation. In 2004 and 2005, those were held successfully with members' enthusiasm support and we received good responses with valuable comments from members.

19 November 2004

Joint Conference of HKAEE & Guangdong Solar Energy Society

Venue: HKPC Building – Conference Room

In the conference, we delighted to have Prof. Dr. – Ing. Shen Hui as our honorable guest, we are also glad to obtain the support from Ir Raymond Fong of HKPC as our VIP guest.

Our members took the opportunity to share their experience and carry out the discussion with our guest during the Conference.

19 February 2005

Technical Visit to Taikoo Place

More than 16 participants spent half day at Taikoo Place to understand the energy saving ideas applied at the Taikoo Place and the tour of the Central Monitory system.

16 April 2005

Vision on Electricity Supply – An Exchange of Professional Views

A Forum was jointly held by the Energy Institute (Hong Kong Branch) and HKAEE with support from the Chartered Institution of Water and Environmental Management Hong Kong (CIWEM HK) at the Hong Kong Polytechnic University for collection of views and comments from the group of technical professionals and economists to comprehend issues raised in the Consultation Paper on the “Future Development of the Electricity Market in Hong Kong”.

More than 50 technical experts and economists attended the Forum.

28 May 2005

Technical Visit to University City at Guangzhou and Guangzhou Institute of Energy Conversion

Over 30 professionals were visited the District Cooling Plant in University City and Institute of Energy Conversion at Guangzhou.

Different kinds of renewable energy technologies were demonstrated with detailed explanation from local experts.

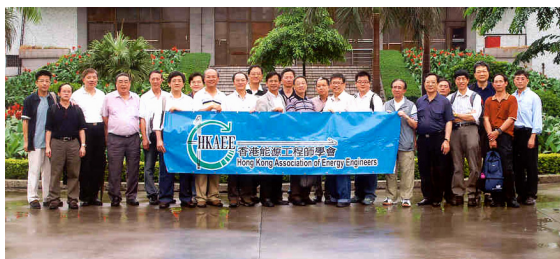

30 July 2005

Technical Visit to Shenzhen Green Garden Solar Plant and Foshan Lighting

The one day technical visit was attended by over 20 members.

Green garden Solar Plant is one of the most efficient and effective grid-connected Solar Systems in the world located, in the grounds of Shenzhen International Garden and Flower Expo Park.

Foshan Lighting is one of the largest manufacturers in PRC. Attendees had opportunity to look at production procedures of different products ranging from simple incandescent bulbs to high tech discharge lamps of all kinds.

25-28 September 2005

Joint Technical Visit to Japan Intelligent Building and District Heating & Cooling Plant

The visit was jointly organized by the Asian Institute of Intelligent Buildings and the Hong Kong Association Energy Engineers. More than 25 participants joined the tour and visited some of the most remarkable buildings in Tokyo, such as Roppongi Hills Mori Tower, Shiodome, etc.

Some participants also attended the formal reception organised by the Government of HKSAR at the SB05 Conference Hotel.

4 February 2006

Joint Technical Visit to “Education Path of New EMSD Headquarters”

Half day joint Technical Visit with the Environmental Division of the HKIE was arranged. Attendees learnt a lot of renewable energy technologies and energy efficient features through the interactive exhibits.

Activities in 2006

Description

Date

Spring Dinner

16 February 2006

Joint Technical Visit to Taipei 101 and Renewable Energy Plants

15-18 March 2006

Exhibition in Germany

End of April 2006

Technical Visit of Wind Turbines at Lamma Island

T.B.A.

Technical Visit of Energy Efficiency Centre of CLP
