
Technical Seminar

Introduction to ISO50001 Energy Management System

Date: 12 July 2012 (Thursday)
Time: 6:00pm to 7:30pm
Venue: Lecture Theatre LT02, IVE Morrison Hill

ABOUT THE SEMINAR

- What is ISO 50001?
- Why do it?
- What are the requirements to do it?

INSTRUCTOR

Dr ERIC WOODROOF, Ph.D., CEM Board Member, CRM Board Chairman, is a trainer and writer, widely recognized both nationally and internationally for helping energy/environmental projects get approved and implemented. His focus is to help clients make more money and simultaneously help the environment. Dr. Woodroof has over 20 years of experience, numerous publications and has identified profit-improvement strategies at over 400 facilities. He has also been a Board Member of the Certified Energy Manager Program since 1999. Dr. Woodroof has worked with the U.S. Public Health Service, Ford, GM, Hertz, Visteon, Trane, Johnson Controls, IBM, the Tulsa International Airport and many others. He is friends with many of the top minds in energy, environment, finance and marketing.
