Programme Highlights

Since Building Energy Efficiency Ordinance (BEEO) came into effect last September the building services industry has held numerous workshops/seminars to help people understand better what are required and how to achieve the objectives of BEEO. The participation of EMSD personnel in some of these workshops/seminars has been well appreciated and it certainly helps the industry to effectively carry out the duties to meet BEEO criteria.

Energy efficiency is one of the major elements in the Intelligent Building Index (IBI) developed by Asian Institute of Intelligent Buildings (AIIB) since 2001. AIIB has been working with others to promote energy efficiency and also sharing its understanding about other IBI elements with the public.

Mediation has become a popular adopted method of dispute resolution, and it is of no exception for construction projects. This talk shall touch base on what is Mediation, its advantage amongst Litigation and Arbitration, the mediation procedure, mediation development in HK and where to get mediation services.

Programme

6:45 p.m. ~ 7:00 p.m.	Registration
7:00 p.m. ~ 7:40 p.m.	<p><u>Building Energy Efficiency Ordinance (BEEO)</u> Ir Brian LEUNG</p> <p>To improve building energy efficiency, the Government formulated the Buildings Energy Efficiency Ordinance which had been passed by the Legislative Council. Under the Ordinance, certain prescribed types of buildings have to comply with Building Energy Code (BEC) and/or Energy Audit Code (EAC). The Ordinance has come into full operation on 21 September 2012.</p> <p>After half a year implementation, it is a good time to make a brief review with some solid cases or data.</p>
7:40 p.m. ~ 8:20 p.m.	<p><u>Introduction to Intelligent Building Index (IBI)</u> Ir Dr. Eric LEE</p> <p>Asian Institute of Intelligent Buildings (AIIB) was established by the turn of the century with an aim to promote the true concept of intelligent buildings first in Hong Kong and then to other cities of Asia. The major achievement of AIIB is the development of a definition of intelligent buildings for Asia, followed by a set of guidelines to help professionals design and assess intelligent buildings, called Intelligent Building Index (IBI). IBI is still the unique evaluation tool around the world based on her beauty of methodology. Now, IBI is updated to her 4th edition. The history of development of IBI, the unique methodology adopted by IBI and some details about the ten quality environment modules, or sub-indices will be presented.</p>
8:20 p.m. ~ 9:00 p.m.	<p><u>Mediation for ECO/Engineering Projects</u> Mr. Charles NG</p> <p>Following the implementation of Practice Direction 31 in 1st January 2010 by courts in HK and effect of Mediation Ordinance in 1st January 2013, Mediation becomes a more and more popular adopted method of dispute resolution. In this talk, Mr. Charles Ng will talk about What is Mediation, its advantage amongst Litigation and Arbitration, the mediation procedure, mediation development in HK and where to get mediation services.</p>
9:00 p.m. ~ 9:15 p.m.	Q&A Session
