2015 CONFERENCE

Smart City – A New Paradigm in Environmental Management

08 May 2015, Friday
Regal Hongkong Hotel

In an urbanized and developed area, an efficient means of communication would be required to drive and stimulate a sustainable economy. Technological advances in recent years have enhanced the mode of data communication, increasing the performance in many key social areas which in turn create a more sustainable environment and better quality of life for the society. The concept of Smart City depends on technologies and its associated infrastructure, and these are the components that help to drive the growth of the environmental management sector. Smart City, therefore can offer a great deal of opportunities for environmental professionals, including but not limited to the field of air, energy, water, waste, and materials. This conference aims to establish a platform for the experts in these specific areas for sharing local and overseas experience and stimulate initiatives.

The Conference is highlighted by the following speakers:

1) Mr. Paul CHAN , Secretary for Development, HKSAR Government
2) Ir Alfred SIT , Deputy Director of Electrical and Mechanical Services, HKSAR Government
3) Ir Elvis AU , Assistant Director (Nature Conservation & Infrastructure Planning) of Environmental Protection Department, HKSAR Government
4) Professor Chuyang Y. TANG , Associate Professor, The University of Hong Kong, Civil Engineering Department
5) Mr. John CHENG , Director of Ronald Lu and Partners Ltd.
6) Mr. Jonathan SPEAR , Technical Director for Transport, Atkins
7) Mr. Jean Pasternak , Energy & Sustainability Services Director, Schneider Electric
8) Representative from Water Supplies Department, HKSAR Government
9) Ir HO Yiu-kwong , Chief Engineer, Drainage Services Department, HKSAR Government
10) Representative from Housing Department, HKSAR Government
11) Representative from Endress + Hauser
12) Representative from Visenti
