## Latest Development in Scientific Feng Shui Research & Introduction to Ufology

REGISTRATION	Apr.
	2
	Sat

The fundamental concept of modern sustainable building emphasizes on a holistic approach to reduce negative environmental impact of man-made structure coincides with the ancient Chinese knowledge of Feng Shui that aims to creating harmony between heaven, earth and human. Previous studies already indicated that there are many similarities between ecological sustainable design and principles and practice of Feng Shui. The latest development of research explores these similarities in a systematic manner using empirical analysis of 31 Green Star rated modern sustainable buildings in Sydney from the Feng Shui perspective. Their sustainability concepts and characteristics will be compared with the theories and applications of Feng Shui knowledge. It finds that the higher Green Star rated of sustainable office buildings achieved higher similarities with Feng Shui concepts. The results will provide a framework for Feng Shui concepts to be considered and applied into the modern sustainable buildings that will enhance the effectiveness of sustainable development.

As an updating of Feng Shui research, after the presentation on Sustainability and Form School Feng Shui, some new results on the study of "Luo Shu", the fundamental element of Compass Feng Shui will be presented.

After that, an "Introduction to Ufology" will be presented where the following topics will be touched upon, definition of UFOs, close encounters, propulsion theories, abduction, photos and videos, crop circles, conspiracy etc.

**SPEAKERS :**

**Dr. Michael Mak**

Dr. Mak is a Senior Lecturer and Program Convenor of the Master of Property program in the School of Architecture and Built Environment, the University of Newcastle, Australia. He has been teaching in architecture, building, construction management and property courses in Australia, Singapore and Hong Kong. Michael was also a Visiting Lecturer with the Department of Civil and Architectural Engineering, City University of Hong Kong from 2005 to 2013. He is a pioneer in developing and teaching a course on scientific Feng Shui in the Master of Science programme.

Michael is the co-founder of the International Conference on Scientific Feng Shui and Built Environment, and the Chair of the Technical Committee of the Conference from 2005 to 2009. In 2013, Michael is the founding editor of the [Academic Journal of Feng Shui](#), which is a peer-reviewed open-access online journal that publishes original research articles in all aspects of Feng Shui/... [read more](#)

**Dr. Albert So**

Albert So obtained BSc(Eng), MPhil and PhD, all in electrical engineering, from The University of Hong Kong. He is a Chartered Engineer and Registered Professional Engineer. During the past one and a half decade, he has built up his interest in Feng Shui study and has co-authored three books with Dr. Michael Mak. In the CPD seminar, he will briefly talk about his new research findings in the "Compass School of Feng Shui" by incorporating ancient Chinese metaphysics and modern linear algebra together to show what our ancestors did were really magnificent. At the same time, Dr. So is also a ufologist and will brief the participants an introduction to Ufology.

**ADMISSION FEE :**

- Members of IFMA Hong Kong Chapter & AIIB / Student of SCOPE: Free Admission
- IFMA Base Members / Members of HKIH and Supporting organizations/ Corporate Sponsors : HK\$ 80
- Non-members : HK\$ 100

**DATE & TIME :** Saturday, April 2, 2016, 15:00 - 17:30

**VENUE :** UR8, SCOPE Admiralty Learning Centre - UR8, 8/F, United Centre, 95 Queensway, Admiralty, Hong Kong

**CPD :** 2.5 hours

**LANGUAGE :** Cantonese

**ENQUIRY :** 2512-0111 / registration@ifma.org.hk

**SUPPORTING ORGANIZATIONS**

**IFMA'S CORPORATE SPONSORS**
