

POST CONFERENCE EVENT

Guided Tour to Innovative & Productive Workplace Recovery

Disasters do happen and it is during such scenarios, companies need to be adequately prepared to sustain and continue their business. In the event, where the regular office is inaccessible, companies need to have appropriate recovery strategies to continue business in order to prevent financial losses, ensure data security and avoid customer dissatisfaction. These recovery strategies have to be practical in nature as well as cost effective. Regus offers a very innovative workplace recovery model which provides assurance to our clients that they will have a **PRODUCTIVE** workplace to resume their business operations. To know more, join the Integrate 2016 post conference event held at Regus AIA Central Centre on May 7, 2016. It would be great to share more about Workplace Recovery portfolio with the IFMA Members to equip with the necessary knowledge base to plan for crisis scenarios.
