The Hong Kong Chapter IFMA

Learn · Connect · Advance

Facility managers are in unique position to improve the sustainability operational performance of facilities. It is not only showing our commitment to addressing global warming but also enhancing the corporate image and improving the working environments.

In this workshop, we are inviting government representatives, NGOs and industrial leaders to share their expertise with us. Topics include “Electrical Vehicles and Smart Charging Facilities in Hong Kong” by Environmental Protection Department. “WELL and Building Performance Data (cloud-based monitoring)” from Bisagni Environmental Enterprise, “Connect the Missing Link of Polyfoam Recycling” by Hong Kong Association of Youth Development (Tsuen Wan District Branch), “Chemical Waste Disposal – Statutory Compliance” by Dunwell Enviro-Tech (Holdings) Ltd, “Waste Management” by World Green Organization, and “New Technology for Green Building” by GEES. There will also be update from HK Chapter of IFMA on Sustainability Facility Professional® credential update.

Space is limited. Book your seat online now to get involved, get informed and get inspired!
