

INDUSTRIAL SPOTLIGHT

Facility managers are multi-tasking. Join this CDP event to hear industrial leaders say about The Hong Kong Awards for Environmental Excellence (HKAEE), International Property Measurement Standard (IPMS) and Intelligent Building Management Services Taking away these practical knowledge and apply in your portfolio.

Session 1 : The Hong Kong Awards for Environmental Excellence (HKAEE)

The Hong Kong Awards for Environmental Excellence (HKAEE) is led by the Environmental Campaign Committee (ECC) alongside the Environmental Protection Department and in conjunction with nine organizations. HKAEE is recognized as one of the most prestigious and reputable environmental award scheme in Hong Kong. HKAEE aims to:

- encourage businesses and organizations to adopt green management;
- benchmark their commitments towards best practices within their sectors; and
- recognize and acknowledge the efforts of leading businesses and organizations

Session 2 : International Property Measurement Standards (IPMS) : One Standard for All

The presentation will explain what IPMS are, why we need them and how we can use them. It will also explain where we are in the process, introduce the IPMS that are available and the plans for future IPMS.

SPEAKER : Mr. David Faulkner, Managing Director, Colliers International

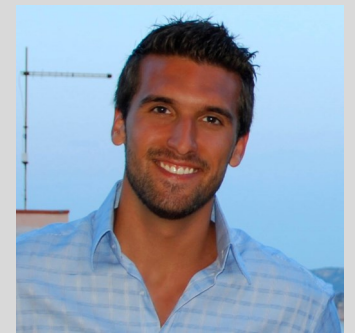

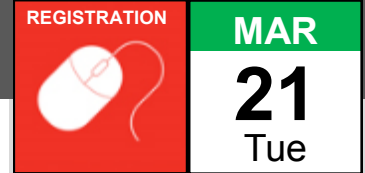

Mr. Faulkner is a trustee of the International Property Measurement Standards Coalition, and is also a past member of International Valuation Professional Board of the International Valuation Standards Council (IVSC); a member of the Royal Institution of Chartered Surveyors (RICS) Global Valuation Professional Group Board; a member of the ULI North Asia Council; practicing member of The Academy of Experts and a member of the Best

Session 3 : WELL and Building Performance Data (Cloud-based monitoring)

This talk will focus on how real-time data is transforming the green building industry and creating new opportunities for technology to enter into the construction sector. The advent of this new technology will revolutionize the industry, and specifically Certifications such as LEED and WELL. A case study will be presented focusing on the most innovative of these software platforms, called QLEAR.

SPEAKER : Mr. Alessandro Bisagni, Founder & Managing Director, BEE-Bisagni Environmental Enterprise

Mr. Bisagni is the Founder and Managing Director of BEE – a sustainability engineering consulting and technology company specializing in the creation of green and healthy buildings. BEE is a GBCI recognized LEED Proven provider and part of USGBC's LEED User Group for Retail. The company specializes in building simulations, commissioning, green building certification (LEED / WELL / RESET / LBC / HK BEAM / China 3-Star), and cloud-based building data management for ensuring ongoing performance. Alessandro has managed over 150 LEED projects, across 25 countries, with a combined GFA of over 30 million square feet. Mr. Bisagni has been recognized by the Urban Land Institute (ULI) as a Top 40 Under 40 professional class of 2016. He is also the co-Founder of the Sustainable Buildings Collaborative (SBC) China.../Read More
