The Conference

Smart City is generally defined as an urban development vision to better manage the city and optimize the resources through the integration of information and communication technology (ICT) in a secure fashion by converging Internet of Things (IoT), Internet of Services (IoS) and Internet of People (IoP). To accompany Smart City development, intelligent industry of various technical aspects is derived.

The **ISSF2017 Conference**, with the main theme **Intelligent Industry for Smart City**, is to be organized jointly by **APIGBA** (Asia Pacific Intelligent Green Building Alliance) and **AIIB** (Asian Institute of Intelligent Buildings). The Conference is considered an important meeting place for academics, engineers and professionals to exchange knowledge and technologies, and will of course, provide you with a platform to share your expertise, experiences and research outputs with other participants joining from the academies, industry and the government of local and overseas.

We anticipate that specific topics for research and report will include:

- Advanced accident and incident management system
- Building Information Model and the related topics
- Facility management and maintenance through big data
- Integrated control for public transportation
- Intelligent green building technologies
- Intelligent outpatient and hospital service
- Predictive traffic control
- Other topics related to intelligent industry for smart city

Date : 21 September 2017

Time : 08:30 – 13:00 (*morning session covering IGB papers from *APIGBA Award winners*)
13:00 – 14:15 (*lunch*)
14:15 – 17:30 (*afternoon session covering Intelligent Industry for Smart City papers*)
18:00 – 22:00 (*AIIB 16th Anniversary and APIGBA Dinner*)

Venue : Kowloon Shangri-La Hotel,
64 Mody Road, Tsim Sha Tsui East, Kowloon

*APIGBA Award

Excellent Intelligent Green Building Projects and Systems Awards

Since 2014, the APIGBA Excellent Intelligent Green Building Project Awards and APIGBA Excellent Intelligent Green Building System Awards are presented biennially to inspire the innovative development of building projects and systems with the advancement of information and communication technologies. Through these means, building and its associated industries in the region will move forward, commensurate with the counterparts worldwide.

Four types of award will be presented locally and regionally:

- Excellent Intelligent Green Building **DESIGN** Award
- Excellent Intelligent Green Building **PERFORMANCE** Award
- Excellent Intelligent Green Building **RENOVATION** Award
- Excellent Intelligent Green Building **SYSTEM** Award

A **Local Award** winner of each type shall be announced on 21st September 2017 and be invited to present her paper during the ISSF2017 Conference.

All local awards, being considered as the Semi-finalists of the APIGBA **Regional Awards**, will then be submitted to compete with all awards from other regional cities/countries in order to achieve the finalist winner for each type of the awards. Among the four (4) finalist winners, the Best Intelligent Green Building Award winner of the Pacific Region will be selected during the **APIGBA 2018 Conference** to be held at **Seoul, South Korea on 27 and 28 June 2018**.

APIGBA

APIGBA (Asia Pacific Intelligent Green Building Alliance) was established in April 2014 to provide the intelligent green building technology with an academic and technology exchange platform in the Asia Pacific region, with the objective of promoting **safety, health, convenience, comfort, energy efficiency and sustainable environment** for people living in the region.

In June 2016, APIGBA Hong Kong Chapter has been delegated as the Host Chapter of the APIGBA for a term of 2 years. Amongst APIGBA-China, APIGBA-Korea, APIGBA-Macau, APIGBA-Singapore, and APIGBA-Taiwan, Hong Kong Chapter has been consented to invite local academic and professional associations in Hong Kong to join as members of APIGBA Hong Kong Chapter, the APIBGA-HKC.

Management Association

AIIB

AIIB (Asian Institute of Intelligent Buildings) was established in 2001 in Hong Kong, the first non-profit making organization in Asia that comprises individuals and companies in the region committed to promoting public understanding and industry adoption of the principles and technologies of the Intelligent Building (IB).

AIIB's core mission includes:

1. To develop Asia's definition and standards for Intelligent Buildings.
2. To act as an independent certification authority for Intelligent Buildings through the use of an Intelligent Building Index [IBI].
3. To educate and promote the community benefits of Intelligent Buildings.
4. To work with international counterparts to bring Asia up to date on developments in Intelligent Buildings.

AIIB remains the most active member of the Executive Committee of the **APIGBA** assisting the development and promotion of APIGBA since 2016 when APIGBA Hong Kong Chapter has stepped up as the Host Chapter.

Supporting Organizations of ISSF2017

香港持牌水務專業學會有限公司
HONG KONG LICENSED PLUMBING PROFESSIONALS ASSOCIATION Ltd.

安全健康師學會
The Institute of Safety & Health Practitioners Limited

(This is the updated list of Supporting Organizations; a finalized list will be confirmed later)
