Technical Visit to International Photovoltaic Power Generation Exhibition Industrial Exchange Tour (Shanghai, PRC)

國際太陽能光伏展覽會行業交流團 (中國上海)

4 – 7 June 2019

Continuous technology progress and rising demands for clean and sustainable energy have made solar energy a global trend. It has spread from Europe to the world, especially the Asian market led by China where we will see a massive expansion.

Following the Feed-in-Tariff policy, a large number of PV systems at village houses, villas, schools, institutional and commercial buildings will be installed in the coming years. The Hong Kong Association of Energy Engineers (HKAEE) provides a tour to Shanghai, China for visiting the SNEC PV Power Expo as a window to in-depth understanding Solar PV most updated technology.
