

Training Workshop on
“Transforming Business Models for Circular Economy”

HKSAR Government has committed to establish circular economy, and to achieve waste reduction, resources circulation and zero landfill. In line with this goal, Green Council is organising an exclusive interactive training workshop aimed at professionals from environmental, waste management, engineering, building, and construction management backgrounds. The workshop will provide step-by-step guidance on transforming business models from the traditional “take-make-consume-throw away” linear economy to a circular economy. By integrating the principles of circular economy, organisations can contribute to resource circularity in Hong Kong, support re-industrialization, and strengthen downstream recovery, recycling, and waste-to-resources capabilities.

Workshop Details

Date	: Thursday, 2 nd November 2023
Venue	: HKMA Advanced Management Development Centre (3/F, Tower 2, South Seas Centre, 75 Mody Road, Tsim Sha Tsui, Kowloon)
