

Training Workshop on “Climate-related Disclosure with GRI standards”

The Global Reporting Initiative (GRI) stands as one of the most prevalent sustainability disclosure frameworks globally, serving as the common language for organizations to communicate their sustainability impacts. It offers detailed guidance on reporting principles, materiality, impact, and disclosures. This standard is particularly popular among Hong Kong companies for publishing their sustainability/ESG reports. Although GRI provides comprehensive guidance, there is a growing emphasis on standards or requirements that focus on climate-related risks and opportunities, as well as financial impacts.

In light of these developments, it is increasingly crucial for professionals in Hong Kong to stay informed about GRI and other climate-related disclosure standards. To address this need, the Green Council has organized a training workshop designed to give professionals the chance to immerse themselves in the world of sustainability/ESG reporting and discover how to effectively implement these practices within their organizations.

Don't miss this valuable opportunity to enhance your professional expertise in sustainability disclosure.

Workshop Details

Date	: Tuesday, 23 rd July, 2024
Time	: 09:30 – 17:30
Venue	: Room 201, 2/F Pico Tower, 66 Gloucester Road, Wan Chai, Hong Kong

Instructor

Mr. Tony Wong, Founder of Alaya Consulting

In 2014, Tony founded Alaya Consulting in Hong Kong, specializing in ESG consulting, and expanded operations to Shenzhen in 2019. The firm assists both public and private companies in improving their disclosure practices and management strategies. Since its establishment, Alaya has produced over 500 ESG reports. Alaya holds the role of the GRI Training Partner in Asia.

With two decades of experience advising C-suite executives, Tony is a seasoned consultant. He is a GRI Nominated Trainer and serves on the committee of the Hong Kong Sustainability Professionals Association. In 2019, Tony launched the Hong Kong ESG Reporting Awards (HERA) to promote exemplary practices within the region. HERA is the first ESG award globally recognized by UNCTAD's ISAR Honours.

Tony holds a master's degree in Corporate Governance from Hong Kong Polytechnic University and a bachelor's degree from The Chinese University of Hong Kong. He is currently pursuing an EMBA at the Peking University HSBC School of Business in Shenzhen. He is also a certified Carbon Audit Professional accredited by the Association of Energy Engineers and a Chartered Governance Professional.
