

Training Workshop on

“Introduction to Carbon Offset for achieving Net Zero”

The adoption of carbon offsetting practices by organizations in Hong Kong has been limited thus far, the landscape is rapidly changing. Many organizations worldwide have committed to achieving net zero targets, they were increasingly recognizing the importance of offsetting their carbon emissions to achieve their sustainability goals and contribute to mitigating climate change. This growing demand was evident in regions like Europe, North America, and Mainland China, where carbon offsetting had gained popularity.

Considering these developments, it has become increasingly important for professionals in Hong Kong to stay ahead of the trend and gain an understanding of carbon offsetting. Green Council has organised this training workshop to let professionals to have the opportunity to dive into the world of carbon offsetting, explore its benefits, and learn how it can be effectively implemented within your organization.

Don't miss this valuable opportunity to enhance your professional expertise and contribute to the global effort in combating climate change.
