

## Webinar on

### Engaging Value Chain to meet Decarbonisation goals

In the pursuit of a sustainable future, engaging the entire value chain is crucial for achieving decarbonisation targets. This webinar will invite speakers to share their experiences in engaging value chain partners to decarbonise the emissions of their organisations. Participants will gain insights into innovative practices and partnerships that can enhance sustainability efforts across the value chain.

## *Speaker Biography*

**Mr. Sunny Li**

**Head of the Project, Facility & Security Management, HK & Macau  
SF Supply Chain (Hong Kong) Limited**

With over 15 years of solid experience in Supply Chain Management, logistics, warehouse, transportation, and account management, Sunny is an expert in 7S (5S + Safety and Security) and Operational Excellence, bringing a wealth of knowledge and practical skills to every project. With a proven track record in new warehouse design and project implementation, ensuring that facilities are optimized for efficiency and sustainability.

**Mr. Bryan Leung**  
**Head of Sustainability**  
**DFI Retail Group**

Bryan Leung is the Head of Sustainability at DFI Retail Group. With a robust background in sustainability, Bryan has been instrumental in driving the company's sustainability initiatives and strategies. These include developing a structured transition plan for value chain decarbonisation, successfully leading the low-carbon rice pilot programme in Thailand, and enhancing waste recycling and reduction performances across the group. Bryan's commitment to sustainability is further demonstrated through his active participation in various sustainability forums and committees, where he collaborates with multiple stakeholders to drive sustainable impacts together.

**Mr. Tse Siu Yin**  
**Sustainability Reporting & Decarbonization Lead**  
**Maxim's Group**

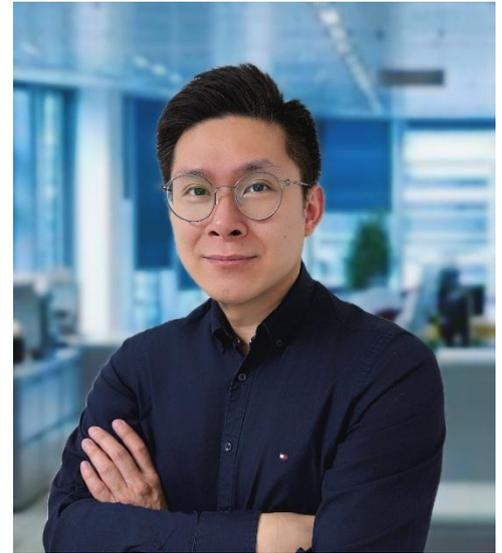

Steven Tse is a seasoned sustainability professional with extensive experience in strategy and reporting. Currently, they serve as the Lead for Sustainability Strategy & Reporting at Maxims, where they drive initiatives for sustainable practices. In addition, they hold the position of Vice Chairman for TIC & Sustainability at GBIUA, indicating their leadership in promoting sustainability in the industry. Previously, Mr. Tse has excelled in various roles, including Head of Academy & Business Development at SGS, and Director of Sustainability at Yu King. Their expertise also includes serving as Senior Manager of Sustainability at HKICPA, as well as Manager of ESG Disclosure & Consulting at PwC, where they contributed significantly to environmental, social, and governance reporting standards. Known for their commitment to advancing sustainable development, Mr. Tse combines strategic insight with a deep understanding of sustainability challenges and solutions.

**Mr. Man Tat Kin**  
**Regional EHS Manager (Asia Pacific)**  
**AIT Worldwide Logistics**

TK leads the Environmental Team for the APAC region at AIT Worldwide Logistics, spearheading the company's environmental initiatives and expanding its sustainability capabilities. Leveraging his regional expertise, he connects green solutions and recycling networks across the APAC region, supporting global clients in achieving their ESG targets and Net Carbon Zero goals.

With extensive experience as an environmental advisor and auditor for listed companies and government agencies, TK brings insights and expertise to advance sustainability at both local and global levels. He holds qualifications as a Lead Auditor in Environmental Management Systems (EMS) and a Lead Greenhouse Gas (GHG) Verifier, and he also has an MSc degree in Environmental Engineering.

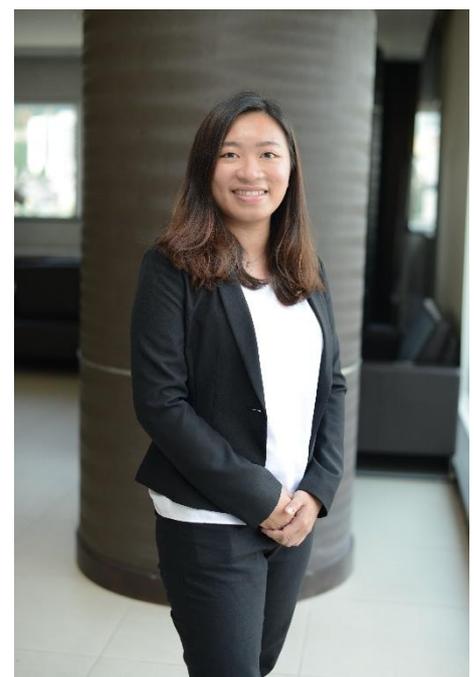

**Ms Michelle Fok**  
**Head of Sustainable Development**  
**Cathay Subsidiary Services**

Ms Michelle Fok, Head of Sustainable Development at Cathay Subsidiary Services, leads the Sustainable Development function for Cathay Subsidiary Services, which provides specialist services to Cathay's ground subsidiaries, including Cathay Dining, Cathay Cargo Terminal, Hong Kong Airport Services and Vogue Laundry.

As the Head of Sustainable Development, Michelle develops and implements ground sustainability strategies focusing on decarbonisation, water conservation, waste diversion, and the avoidance of single-use plastics. She ensures effective communication and awareness among relevant stakeholders. Before joining Cathay, Michelle served as a corporate sustainability consultant, providing advisory services across various industries, helping companies adopt sustainable practices and achieve their environmental goals.

Michelle is passionate about contributing to global climate change efforts and making positive changes to create a more livable world.
