

Training Workshop on ESG Transformation and Evolution: Driving Impactful Changes through Technology

In today's rapidly evolving landscape, Environmental, Social, and Governance (ESG) commitments are no longer optional—they are critical to resilience, reputation, and growth. Yet, navigating this complex transformation presents significant challenges.

This advanced workshop is designed to cut through the complexity. We move beyond theory to focus on the how. How can your organisation harness the power of innovative technologies to not just report on ESG, but to genuinely advance it? How can these technologies transform vision into strategy and action plan into measurable impact?

Led by seasoned practitioners, this session provides a strategic roadmap. Gain actionable insights into integrating technology into your core ESG frameworks. Learn to meet regulatory demands, respond to investor expectations, and unlock new value through sustainable practice.

Workshop Details

Date	: Friday, 8 May 2026
Venue	: HKMA - Causeway Bay Room 101, 1/F, First Commercial Building, 33-35 Leighton Road, Causeway Bay, Hong Kong
